C95-R

C90-R

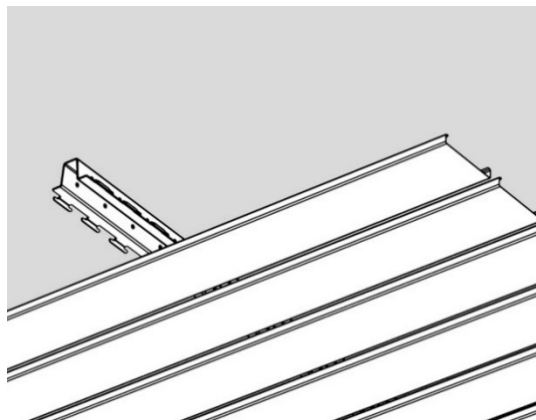

C90-R
(+ MNT C90-R)

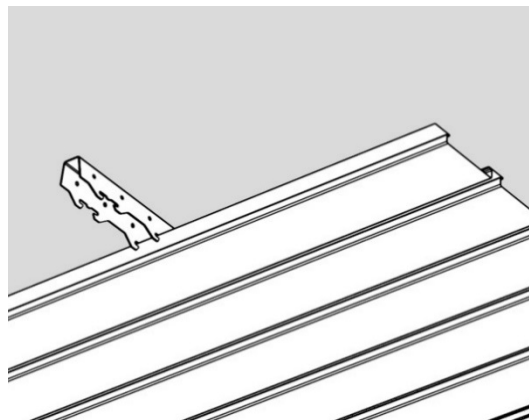

För liggande version med takplattor 300 x 1200 eller 312 x 1250 mm, rekommenderar vi att C20-R G2, C95-R, C90-R eller C63-R användas. För hängande version passar C90-R eller C63-R bäst.

Linjära tak

Linjära tak finns i många modulbredder (vanligen 100, 150, 200 och 300 mm) med begränsning i endast en riktning (tvärs). Panelerna är profilerade på varje sida, antingen i en öppen eller fast konstruktion. Panelerna varierar mycket i både höjd och utformning.

Öppet linjärt tak

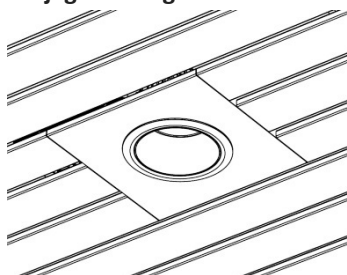

Fast linjärt tak

Exempel på leverantörer

Dampa, Hunter Douglas

Möjliga lösningar

D70-R

Eftersom linjära tak har så många olika utföranden, rekommenderar vi att använda infällda downlights eller andra lösningar, till exempel pendlade armaturer.

Glamox Gruppen

Glamox är en norsk industrikoncern som utvecklar, tillverkar och distribuerar professionella belysningslösningar för den globala marknaden. Vår mission är att tillhandahålla hållbara belysningslösningar som förbättrar människors prestanda och välbefinnande.
